

Midterm Presentation

Team JKJ:

Keegan Hawkins, Jacob Stone, Jon Hoeve

Elevator Pitch

- Homework Reminder app
- Add, remove or change assignment reminders
- User enters class name, assignment name, due date, priority level for a given reminder
- Get notified when a due date is approaching
- View assignments or reminders via a weekly, monthly or yearly calendar
- Allow user to sort their reminders based on class name, due date, priority level

Timeline

- Completed Tasks
 - Create a GUI with Calendar
 - Make visible Tasklist
 - Adding and removing Tasks from a list
 - Notification system
- Uncompleted Tasks
 - Add date specific task list(Keegan)
 - Add code for sorting tasks(Jon)
 - Implement in Android App(Jacob)
 - Implement all code into working GUI (Keegan)
 - Implement a login display(All)

Use case diagram

Task List diagram
